Finaly I can be a spartan just like Master Chief thought Sara as she ran to the doctors office eluding pedestrains and the like as she ran past them in a blur trying to get to the doctors office on time without being late which she only had 5 mins left...

4 Mins Later

Ahh...finaly...made..it...huffingly said Sara as she tryed to grasp enough breath to fill her devoid of air lungs and calm her blood down to a rather plesant pumping rate ahh I see you made it said Doctor Robert as he looked up from his desk to see a sweating and red faced blonnd girl looking at him tiredly so what are we going to be doing Doctor said Sara well we going to be increasing your derabillity of your body and muscles and going make it so your brain can process infromation 2x faster then a normal human and we going make it so your nerves will be more enhanced so that as soon as your brain gives

your hand a signal it will already have been done in .1 mili sec said Doctor Robert Sara just stared at him dumastruck thats increadbile sayed Sara Well thats what happens when you become part machine said Doctor Robert a machine? said Sara yes most of your body will be part machine you will be a android sorda just more human you still be able have children and produce milk and all that but you wont be having periods im sure your glad for that said Doctor Robert how is that possible how you going stop me from having periods? said Sara well like I said we are going to make your body more derbile so every part of it must be strong even your reproduction organs and the like said Doctor Robert I see said Sara will you increase my height said Sara we proably add 2 inches said Doctor Roberts not to much woman were made to be shorter then man so they wouldn't be targeted by others so easily and so your body has closure to create the baby and produce the milk said Doctor Robert I see so does that mean my breasts will get bigger? asked a red faced Blond eh...heh... yes they will about D cup i believe said a now red faced Doctor wha...D cup said Sara as she looked at her small breasts.
